

# EMMANUEL UDORAH

Front-End Developer & Creative Designer

Lagos, Nigeria · udorahemmanuel23@gmail.com · +234 901 648 4712 · +234 811 418 3387 · [emmydev.me](https://emmydev.me) · [github.com/emmanueludorah](https://github.com/emmanueludorah)

## PROFESSIONAL SUMMARY

Front-End Developer and Creative Designer with 3+ years of professional experience building responsive, high-performance web applications using React, JavaScript, and Tailwind CSS. Proven ability to translate Figma designs into polished, production-ready interfaces including raising an app's Lighthouse performance score from 74 to 92 and increasing user engagement by 22%. Combines solid engineering fundamentals with a graphic design background spanning 300+ completed projects, delivering products that are technically sound and visually refined.

## TECHNICAL SKILLS

### Frontend Development

HTML5 · CSS3 · JavaScript ES6+ · React.js · Tailwind CSS · Next.js · TypeScript · Material UI · Responsive Design · REST API Integration · Performance Optimisation · Cross-browser Compatibility

### Tools & Workflow

Git & GitHub · Figma · VS Code · Chrome DevTools · Netlify · Vercel

### Design

Adobe Photoshop · Illustrator · CorelDRAW · Canva · Brand Identity · Layout Design

## WORK EXPERIENCE

### Front-End Developer Intern

TrueMinds Innovation Ltd | Jan 2026 – Mar 2026 | Remote

- Built reusable React component library across multiple product pages, reducing front-end duplication by ~30%.
- Translated Figma prototypes into pixel-accurate, accessible interfaces in collaboration with the UI/UX team.
- Integrated REST API endpoints for real-time data rendering using optimistic UI patterns.
- Refactored asset delivery pipeline, raising the app's Lighthouse performance score from 74 to 92.
- Drove a 22% increase in user engagement through iterative UI refinements to key interactive features.

### Front-End Developer

Skyline Web Technologies | Jan 2023 – May 2024 | Remote · Contract

- Developed a reusable React component library adopted across two client projects, cutting new-feature delivery time by ~25%.
- Integrated payment and analytics APIs enabling real-time data in a client-facing analytics dashboard.
- Resolved cross-browser CSS inconsistencies in Safari and IE, reducing QA-reported layout bugs by ~40%.
- Shipped a full analytics dashboard from Figma spec to production deployment.

### Junior Front-End Developer

PixelSoft Digital | Aug 2023 – Dec 2023 | Remote · Contract

- Converted 12 Figma screens into fully responsive interfaces, meeting design fidelity on first review.
- Resolved responsive layout regressions across mobile, tablet, and desktop breakpoints ahead of launch.

### Graphic Designer

BrandHive Creative Agency | Jan 2024 – Oct 2025 | Remote · Freelance

- Delivered 200+ design projects spanning brand identity, social media assets, and marketing collateral.
- Developed end-to-end brand identity systems — logo suites, typography guides, colour palettes — improving client recognition.
- Produced social campaigns achieving measurable lifts, including one campaign with a 3x increase in impressions.

## FEATURED PROJECTS

### Personal Portfolio — EmmyDev

[Html](#) · [CSS](#) · [JavaScript](#) · [Vercel](#)

Responsive developer portfolio built end-to-end from Figma concept to production. Achieved a Lighthouse performance score of 92+ through lazy-loading, semantic HTML, and optimised asset delivery.
